BT9342

UNIVERSAL DIRECT VIEW LED CEILING MOUNT

The BT9342 is a ceiling mounted solution designed to assemble LED cabinet videowalls. Using components from B-Tech's System X and System 2 ranges, the BT9342 is part of a universal mounting system which is compatible with various LED cabinets, for use in several formats; wall mounted, trolley, freestanding, bolt down and ceiling mounted. An LED configuration tool allows BT9342 requirements to be specified online and features a quote request option which means pricing can be provided quickly, orders placed can then be fulfilled with short lead times thanks to our extensive stock of off-the-shelf B-Tech components.

FEATURES

- Configurable mounting solution available to order to your requirements, from stock - see configurator for info
- Universal design suitable for a variety of LED panels and configurations
- Options for front or rear mounted panels (see below)
- Assembled from off-the-shelf components for fast order fulfilment
- Online configuration tool for quick turnaround of quotes - no more lengthy wait for bespoke pricing from custom manufacturing
- System can be extended to any required width for large installations
- Open frame allows panel access for easy servicing and maintenance
- Pre-assembly of major parts for quick and easy installation
- All mounting hardware included

Request a quote

B-Tech's online configuration tool is a quick and simple way to specify and order your LED videowall mounting solution. Simply input a few details about the panels you wish to use and how you want to install them (wall mounted, trolley etc) and the tool will give you a part code that you can use to order with. The request a quote option will instantly notify us of your interest and allow us to quickly provide you with a quotation.
